## Prowler Skid Steer Tire Selection

Prowlers skid steer tires will provide one of the lowest operating costs per hour for off-road use. Manufactured with pure, "All Natural" rubber compounds, beefed up sidewalls and high ply construction, our off-road skid steer tires will provide any contractor, landscaper or farmer the results they need without busting their budget.

Prowlers skid steer tire line will provide the ultimate solution for all your operational needs. The demand for severe duty skid steer tires with low void and deep tread has never been greater. The quality and design of our tires for skid steers will provide excellent traction and mobility while operating at maximum load capacity. The Pro-Flex solid tires are the best solution for working in or around heavy demolition material, eliminating any chance of flats or costly downtime.

Skid steer tires need to be puncture resistant to eliminate any downtime and durable enough to provide the longest wear, ultimately lowering the cost per hour. Prowler tires are application specific, so as long as you purchase the right tire for your work environment, you will see the return on your investment rather quickly. If you are not sure what tire would work best for you, please contact us and allow our experienced team assists you in selecting the right tires for your skid steer.

## Excellent Skid Steer Tire Design

A sense of security is what you'll get when you equip your skid steer with a set of Prowler tires. Below are some of the benefits of purchasing your skid steer tires from Prowler:

- All tires are manufactured with virgin natural rubber compounds
- Full ply construction to reduce risk of damage and extend tire life
- Wheel guard to help protect against moderate impacts
- Deep tread lugs provide maximum traction within the most severe applications
- Self-cleaning, step tread design to maintain traction in wet, muddy conditions
- Choice of pneumatic or airless tires

## USA Loader

A great tire for loaders of every type.

Size	Ply Rating	Diameter	Width	Rim Width	Capacity	Max PSI	Weight	Tread Depth
10x16.5	10 Ply	30.9"	10.9	8.25	4720 lbs.	75	62.0 lbs.	26/32nds
12x16.5	12 Ply	32.7"	12.6	9.75	4810 lbs.	50	72.8 lbs.	27/32nds
14x17.5	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A

For aerial platform lifts, backhoes and skid steer loaders, USA loader is a solid choice.

## Trac Chief XT

Extra load rated Trac Chief.

Size	Ply Rating	Diameter	Width	Rim Width	Capacity	Max PSI	Weight	Tread Depth
10x16.5	10 Ply	30.6"	10.8	8.25	4710 lbs.	75	49.0 lbs.	21/32nds
12x16.5	12 Ply	32.8"	12.5	9.75	6320 lbs.	80	69 lbs.	23/32nds
14x17.5	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A

For skid steer, backhoe, subcompact tractor, aerial platform lifts, rough terrain forklift and other applications, but where extra load is a requirement. A extra load all-purpose skid steer tire.

## Guard Dog HD

HD premium performance for skid steer and backhoe applications.

Size	Ply Rating	Diameter	Width	Rim Width	Capacity	Max PSI	Weight	Tread Depth
10x16.5	10 Ply	30.9"	10.3	8.25	4710 lbs.	75	56.6 lbs.	26/32nds
12x16.5	12 Ply	32.7"	12.1	9.75	6320 lbs.	80	83 lbs.	28/32nds
14x17.5	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A

Where premium skid steer performance is required, choose the Guard Dog HD. Increased puncture and abrasion resistance, coupled with deeper tread depth. Designed for optimum service life.

## Ultra Guard

Severe service skid steer.

Size	Ply Rating	Diameter	Width	Rim Width	Capacity	Max PSI	Weight	Tread Depth
10x16.5	10 Ply	30.4"	10.4	8.25	4710 lbs.	75	79 lbs.	44/32nds
12x16.5	12 Ply	32.7"	12.1	9.75	6320 lbs.	80	98 lbs.	44/32nds
14x17.5	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A

The Ultra Guard is a severe service skid steer tire with open shoulder design and super rugged heavy duty construction for tough conditions. Abrasion resistant tread compound. Deep tread depth and heavy ply ratings make this tire a must have for extreme environments.

## Ultra Guard LVT

Extreme service skid steer tire with low void tread area.

Size	Ply Rating	Diameter	Width	Rim Width	Capacity	Max PSI	Weight	Tread Depth
10x16.5	10 Ply	31.4"	10.4	8.25	4710 lbs.	75	90 lbs.	44/32nds
12x16.5	14 Ply	33.5"	12.1	9.75	6780 lbs.	90	114 lbs.	44/32nds
14x17.5	14 Ply	37.5"	13.6	10.5	8540 lbs.	80	144 lbs.	44/32nds

A hard surface skid steer tire for extreme service requirements. Low void tread for maximum net ground contact, enlarged tire overall footprint and extra premium chip and chunk resistant rubber.

## ProFlex Solid Flat Proof Skid Steer Tires

A flat tire on your skid steer can be very costly, especially when the job depends on your machine to stay up and running. Many tire punctures can be so large that even tire slime could not stop an air leak. By the time you remove the tire, take it some where to be repaired or replaced, then re-installed can take an average of 2-3 hours. Add 2 employees and the cost of the repair itself may cost you around \$300.00 plus lost time.

Investing in Solid Flat Proof Skid Steer Tires is the best solution when working in applications where tire punctures are at great risk. The advantages of running solid rubber tires are:

- No down time!
- You'll get 2-3 times the service life of pneumatic tires
- Operate in an expanded range of environments
- Little to no maintenance
- Higher load capacities
- Highly durable, and gouge resistant

The Prowler ProFlex Solid Tire has dual aperture holes that provide a softer ride, providing the operator a bit more comfort.

Don't waste your money on foam filling tires when you can purchase a set of Solid Bobcat Tires for just a fraction more, and can get twice the service.

If your running your skid steer in demolition, scrapyards, junkyards, or other hazardous areas do yourself a favor and give us a call and allow us the oppurtunity to provide you with more information about solutions for equipping your machine with a set of no flat tires.

### Pro-Flex Solid Treaded flat proof skid steer tires

Size	Ply Rating	Diameter	Width	Rim Width	Capacity	Max PSI	Weight	Tread Depth
10x16.5	N/A	31.0"	10.0	-	6525 lbs.	N/A	225 lbs.	64/32nds
12x16.5	N/A	33.0"	11.5	-	7880 lbs.	N/A	275 lbs.	64/32nds
14x17.5	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A

No more down-time! Get up to three times the service life of a pneumatic skid steer tire.

## Steel Skid Steer Wheels and Wheel Spacers

Prowler offers replacement wheels for all makes and models of skid steer loaders. Prowler's heavy duty skid steer rims have a 3/8" steel center that is welded, not crimped for maximum strength. This type of bolt center is virtually unbreakable making it the ideal wheel for use on foam filled skid steer tires. Strength and quality is not always expensive. Prowlers skid steer wheels are not only as strong as OEM, but cost much less.

Standard Duty

Heavy Duty

Whether you own a Bobcat, Thomas, New Holland, Gehl, John Deere or other brand, we can color match our wheels to any skid steer make and model.

Don't settle for anything less than Prowler skid steer wheels. We always have wheels in stock for 10×16.5 (8.25×16.5 wheel), 12×16.5 (9.75×16.5 wheel) tires.

- Prowler skid steer wheels are available in orange, black, yellow, and tan to match your machine's manufacturer wheel color
- 15 degree head seat allows for an ultra tight seal between the wheel and your tire
- All Prowler heavy-duty steel wheels have a 360 degree weld around the entire bolt-plate (Nave)
- Stem guards are standard on all Prowler heavy-duty and standard-duty skid steer wheels
- Prowler wheels are available in both 6 and 8 lugs
- You will find 4mm – 5mm steel thickness throughout the design of our skid steer wheel
- Available in 8.25×16.5 (10×16.5 Tires) and 9.75×16.5 (12×16.5 Tires)

Heavy Duty  
360 Degree Weld

## Wheel Spacers for Skid Steer Loaders

Prowler's wheel spacers allow you to obtain the proper clearance needed to run over the tire track systems on your machine. Below are specifications of each style, specific to the machines they were designed to work with.
